Life

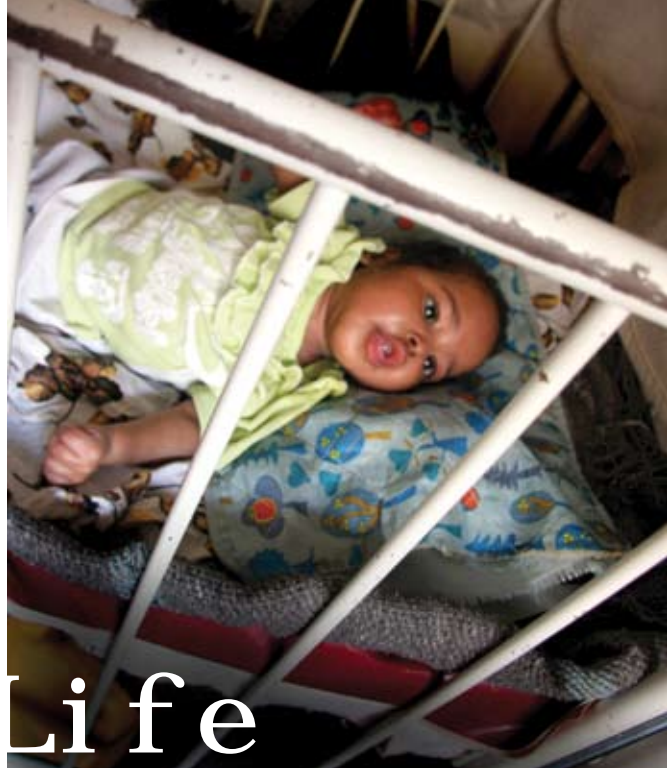

One million children under age five in sub-Saharan Africa **die** each year from malaria. That's one child every 30 seconds. More than 100 countries are facing a malaria pandemic brought on by mosquitoes carrying the parasite. Estimates range from 300 to 500 million cases each year.

We know the cause: Mosquitoes carrying the deadly parasite transmit it into the bloodstream when they bite.

We have a solution: For \$10, we can purchase an insecticide-treated bed net, distribute it to a family and educate them on its use. It's simple, cost-effective and has the potential to save lives.

Save a **Life**

Join the NET

Our goal is to raise enough funds to buy **100,000 mosquito nets** and distribute them to families living in high-risk regions such as sub-Saharan Africa and Latin America. The nets, along with education on proper use, can help **prevent malaria** before it becomes a problem.

Malaria is not only treatable, it's preventable.

\$10 is all it takes to be a part of a **lifesaving** solution for a family in need.

Spread the NET

Start a campaign against malaria.

Tear off the attached postcards and send them to your friends and family, inviting them to Join the Net.

Save a **Li**fe.

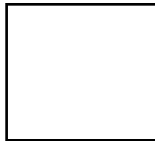

Every 30 seconds, a child dies from malaria.

A \$10 mosquito net can change that. You can help save lives -- Join The Net and help us reach our goal of providing 100,000 nets for families in need.
